Note: A city with no allocation is due to an overlap with a district that operates and manages park and recreational areas and facilities for that population.

All populations are estimates as of January 1, 2000. Populations of city and county are based on the City/County Population Estimates Report E-1 prepared by the California Department of Finance and released May 3, 2000. Populations of districts are estimates based on the most recent verifiable census data and other population data that were furnished to the Department. Sources of population estimates for districts included County Planning Departments, Council of Governments or Association of Governments, Local Agency Formation Commissions, and County Registrars.
