

HISTORIC AND CULTURAL
RESOURCES ELEMENT

HUNTINGTON BEACH

STATUTORY REQUIREMENTS

In addition to the seven mandatory elements, other optional elements may be included in a City's General Plan. The California Government Code Section 65303 states:

The General Plan may include any other elements or address any other subjects which, in the judgment of the legislative body, relate to the physical development of the county or city.

Huntington Beach's Historical and Cultural Element is just such an optional element. Once adopted, this element will have the same legal status as any of the mandatory elements. Additionally, other state requirements pertaining to the mandatory elements, such as internal consistency, also apply to the optional element.

TECHNICAL SYNOPSIS

A. HISTORIC RESOURCES

To best understand the importance of Huntington Beach's historic resources, it is necessary to examine the history and events that helped shape the community's built environment. Along with a basic historical understanding, the styles and variations of Huntington Beach's architectural resources must also be examined. The overall intent of this section is to identify the historical resources of the community, their current designations and community status, and the issues affecting their future.

1. City History

The area that is now Huntington Beach came under European control as a portion of a large land grant from the Spanish Governor of California, Pedro Fages, to one of his soldiers, Jose Manuel Nieto, in approximately 1784.

In 1834, following Mexico's independence from Spain, the original land grant, stretching from the ocean by Newport Beach, north into La Habra Heights area and east into San Bernardino County, was split at the request of the Nieto heirs. Mexican Governor Jose Figueroa deeded a section called Rancho Las Bolsas, consisting of 21 square miles to Catarina Ruiz, a widow of one of the Nietos. This area later became the cities of Huntington Beach, Garden Grove, Westminster and Fountain Valley. Seven years later, a six square mile rancho to the northwest, Bolsa Chica, was spilt off and granted to Joaquin Ruiz.

In 1850, Abel Stearns acquired both Las Bolsas and Bolsa Chica Ranchos, making him the largest land and cattle owner in the state. As a result of a severe drought in 1867, Mr. Stearns sought financial assistance, thereby formulating the Stearns Rancho Company.

Under the Stearns Rancho Company, the Huntington Beach area was considered valueless and sold for \$5 to \$10 an acre because of the swampy thick vegetative areas and salt water marshes. These swampy willow thickets became a haven for fugitives and religious groups and was soon known as "Gospel Swamp" because it was used by early minister-settlers to preach the Gospel.

Colonel Robert Northam purchased the mesa from the Stearns Rancho Company and created the town of "Huntington Beach." Since the swamp surrounded the mesa most of the year, no railroads, bridges, nor roads linked the mesa to any existing community.

Philip Stanton formed a local syndicate in 1901 and purchased 1500 acres of Rancho Las Bolsas from Robert Northam for \$100,000. The group, organized as the West Coast Land Company, subdivided 40 acres along both sides of what is now known as Main Street, and called it "Pacific City." It was Stanton's dream to build a town on the Pacific coast that would rival the east coast's Atlantic City. As a result, water wells were drilled and streets were paved; Stanton realized the need for mass transportation and is reported to have persuaded Henry E. Huntington to bring the "red cars" to the City. The West Coast Land Company, reorganized, renaming itself the Huntington Beach Company and purchased additional land from Colonel Northam. The first electric passenger train came to Huntington Beach in 1904. The City name changed to Huntington Beach in approximately 1903 and incorporated in 1909 as a townsite with 3.57 square miles and a population of 915. The land value continued to remain low, and as a result, The Encyclopedia Americana Company purchased 10 acres (considered almost worthless), subdivided them into 2,500 square foot lots and gave them as a bonus when purchasing a set of encyclopedias.

Early Huntington Beach settlers discovered natural gas while drilling for water. In 1919, geologists influenced by the natural gas discoveries started exploratory oil drilling. Practically overnight, the small Huntington Beach town exploded with oil fever. Many of the poor families that were farming on 10 to 15 acres became overnight millionaires. Encyclopedia lot owners began receiving \$100 per month for their "worthless" properties. Standard Oil leased 500 acres of land from the Huntington Beach Company and drilled their first well in the northwest area of the City producing approximately 91 barrels a day. The second discovery well, Bolsa #1, was a large find with 2,000 barrels of oil pumped per day; the Bolsa Chica #1 discovery caused fortune hunters to flock to the City. The town suddenly grew from 1,500 to 5,000 people.

In 1926, the area between 8th Street and 23rd Street, was the focus of the second oil boom for Huntington Beach. Virtually every lot was turned into an oil lease with many existing houses and structures completely moved.

Although oil was the primary factor in Huntington Beach's economy, the City did not ignore the community's need for recreational and cultural opportunities. In 1921, the City purchased, from the Huntington Beach Company, a beach area from the pier to 9th Street for \$75,000.

Although most of Southern California experienced a housing boom after World War II, the rapid expansion had comparatively little effect on Huntington Beach since so much of the surrounding land was in active oil production or agricultural use. The original 1909 townsite consisting of 3.57 square miles remained much the same until the late 1950's annexations. From 1957 through 1960, Huntington Beach experienced its most rapid growth, increasing its size to 25 square miles as a result of 11 farmland annexations. Land values increased dramatically; as a result of an increased Orange County housing demand, outlying farms were sold and residential uses developed.

In recent years, much of the oil fields have been cleared and recycled for development. However, the oil industry is still a part of Huntington Beach's character and image.

2. Architectural Resources

Structures in Huntington Beach are comprised of a variety of architectural styles. These styles serve as a physical background to understanding the history and culture of the Huntington Beach area. The following describes predominant architectural styles that remain in Huntington Beach today.

a. Victorian (circa 1880-1901)

Queen Anne, Queen Anne Cottage, Shingle and Eastlake are all style variations on the Victorian theme that occur in Huntington Beach's residential structures.

Victorian, in American architecture, refers to styles that were popularized during the last decades of Britain's Queen Victoria's reign (1837-1901). The style introduced the use of lighter, two inch boards held together by wire nails. This constructional change freed houses from their traditional box-like shapes and permitted the simplification of corner construction and enabled wall extensions, overhangs, and irregular floor plans to occur. Victorian styles clearly reflect industrialization changes in their elaborate detailing and decorative components such as irregular elevations, frequently broken up by towers or bay windows and the exteriors decorated with spindles, fretwork, sawnwork and elaborate scrollwork.

Local examples include¹:

- Newland House, 19820 Beach Boulevard (Queen Anne)
- Helm-Worthy House, 126 Sixth Street (Eastlake)
- 223 Sixth Street (Shingle)

b. Colonial Revival/Neo-Classical Box (circa 1900-1912)

This revival of interest in the classical models dates from the World's Colombian Exposition held in Chicago in 1893. The expositions' planners mandated a classical theme, and many of the best-known architects of the day designed dramatic colonnaded buildings arranged around a central court. The exposition was widely photographed, reported, and attended; soon these Neo-classical and Colonial Revival models became the latest fashion throughout the country.

These homes emphasize a rectangular volume with facades that show symmetrically balanced windows and a center door. Colonial Revival architecture typically accentuates the front door with a decorative crown supported by pilasters, or extended forward and supported by slender columns to form an entry porch.

Neo-Classical facades are dominated by full-height porches with a roof supported by classical columns. The one-story cottages that are the dominate Neo-Classical style observed in Huntington Beach typically have hipped roofs with prominent central dormers.

¹ Source: Thirtieth Street Architectural Survey, 1986

Local examples include:

- 326 7th Street (Neo-Classical)
- 428 7th Street (Colonial Revival)
- 321 5th Street (Colonial Revival)
- 702 11th Street (Colonial Revival)

c. Cottages/Bungalows (circa 1912-1940)

This category includes small, modest homes, beach cottages and California Bungalows. The word Bungalow can be traced to India, where in the 19th century, the British used it to describe a one story house with a high encircling porch. In California, the term is applied to houses that have similar characteristics but their design concepts derive from completely different antecedents. The California Bungalows drew much of their influence from the small-scale, one-story, Queen Anne-style cottages that were profusely built throughout California between 1880 and 1890. It was this basic form in which architects brought elements of the craftsman movement, the Stick Style and others into a very distinct American synthesis.

This style of homes primarily served as beach resort cottages and modest housing for those in Huntington Beach. Exterior wall surfaces are covered with board and batton clapboard or stucco. These houses are built of a single story with a porch or porches. Their windows are wood hung in either double-hung or casement.

Local examples include:

- 423 6th Street
- 617 7th Street
- 619 7th Street
- 713 Main Street
- 412 9th Street (Early Cottages)

d. Craftsman (circa 1905-1930)

The craftsman house is one of the few indigenous American styles inspired by the work of two Southern Californian brothers, Charles and Henry Greene. The theme of the craftsman construction emphasized function and beauty while utilizing local materials to blend with local landscapes. The craftsman style became increasingly popularized through various publications, and as result, a flood of pattern books offered plans for craftsman bungalows. It was through these mechanisms that the craftsman house quickly became the most popular and fashionable house style in the country.

The craftsman house features low pitched, gabled roofs which may be hipped with wide, unenclosed eave overhangs. Roof rafters are usually exposed with decorative beams or braces commonly added under the gables. Porches are either full or partial width with the roof supported by tapered square columns, which are frequently extended to the ground level.

Local examples include:

- Shank House, 204 5th Street
- 317 5th Street
- Griffith Apartments, 738-740 Main Street
- 715 Main Street

e. Spanish Colonial Revival (circa 1910-1940)

Domestic buildings of Spanish precedent built before 1920 are, for the most part, free adaptations of the mission style. Not until the Panama-California Exposition of 1915, held in San Diego, did the precise imitation of more elaborate Spanish prototypes received greater attention. The interpretations focused on the richness of Spanish precedents and architectural traditions that were observed throughout Latin America.

The style features low pitched roofs, usually with little or no overhang, and red tile roof coverings. The floor plans are typically informal with simple box-like shapes. Prominent arches are usually placed above the door, principle windows or just beneath the porch's roof. Wall surfaces are almost always stucco on an asymmetrical facade.

Local examples include:

- 111-115 7th Street
- 509 10th Street
- 828 11th Street
- 802 Main Street

f. Period Revival (circa 1900-1940)

This is a combination of revival styles with borrowed images from Mediterranean, English Tudor, Federal, Georgian, French Norman, Moorish and other styles. Many of these have roof lines with steep pitches to emphasize their style. The Mediterranean Revival homes feature stucco walls, parapets, tile roofs and arched doors or windows. Although distinctive from others in its purer form, elements of the Spanish or Mediterranean Revival styles are often mixed with other styles of this period. Window forms are generally casement or double-hung and the front door is often heavy wood in design. Most homes of this period do not have front porches.

Local examples include:

- 317 7th Street (English Tudor Revival)
- First Baptist Church, 401 6th Street (Gothic Revival)

g. 40's Tract (circa 1940-1950)

These homes marked the first development of tract homes within Huntington Beach. These ranch style homes generally have composition roofs and stucco clad exteriors. The windows are generally double-hung and are wood frame.

3. Historic Resources

Depicted on **Figure HCR-1** are the historical resources identified by the City, the Historical Resources Board (HRB), 1986 Downtown Historical Study and a windshield survey. The historic resources are specifically described in further detail in the following text.

The community's historical resources have been identified as significant structures and places by one of four sources, the HRB, a Historic Place by the National Register, Potential Historic Districts by the Downtown Survey, and/or a Local Landmark by the City of Huntington Beach City Council. The historical resources that have been identified are described below.

Listed here are specific terms that will be used in the following discussion of local resources.

National Register Historic District - A national listing of districts noted as significant for a list of items.

Conservation District - Useful in places where full historic district designations are not feasible. Established regulations govern the heights, scale and roof lines of new construction and additions with the intent of preserving the district's character.

Local Historic District - A City designated area of historical or cultural significance. The designation allows cities greater flexibility in determining the types of rehabilitation and infill to be permitted.

National Register of Historic Places - A register of sites, buildings, structures and objects, significant in American history, architecture, archaeology and culture.

a. **Significant Structures and Places**

The Historic Resources Board (HRB) for the City of Huntington Beach has generated a list of local landmarks considered to be of significant importance to the local community as shown on **Tables HCR-1 and HCR-2**. The HRB functions solely as an advisory board to the City Council on historical issues and programs.

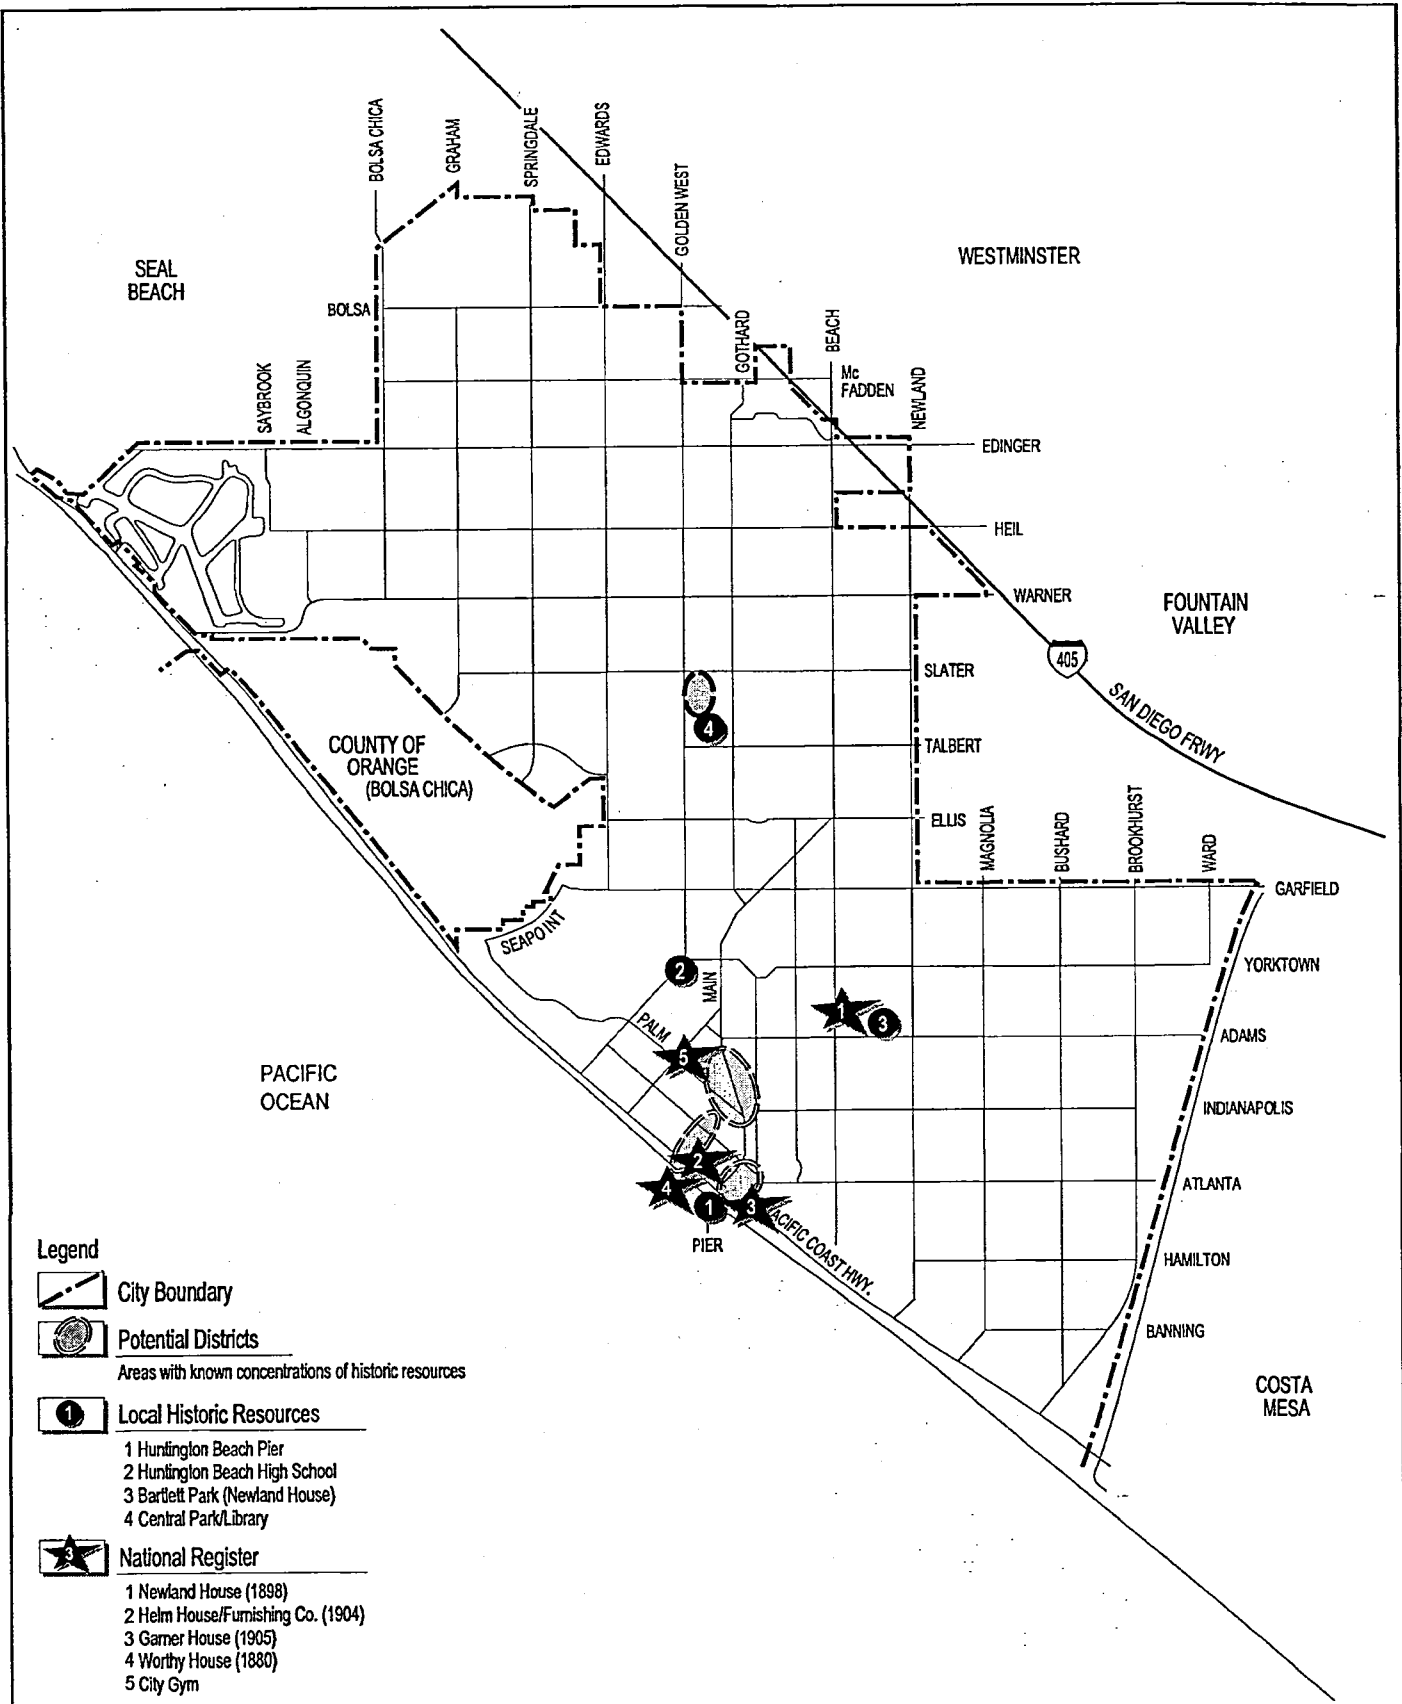

The significance of a structure or a place is based upon its overall contribution to the community by either its historical, age, cultural, social, or visual function(s). It is the intention of the HRB to place these structures and places on a City listing for protection and/or preservation of the landmark's size, scale, design and/or function. **Table HCR-1** represents the rating system devised by the Department of the Interior and **Table HCR-2** is the HRB's list of local landmarks.

b. **National Register of Historic Places**

The City currently has five historic structures that have gained status on the National Register of Federal Historic Places. These historic places as shown on **Plates HCR-1 and HCR-2** are:

City Gym and Plunge - 1600 Palm Avenue

The City Gym and Plunge was added to the register in 1993. The structure was built in 1931 and is still used for its original purpose as a gymnasium and pool facility.

FIGURE **HCR-1**

TABLE HCR-1

Category Ratings for Historical Landmarks

1	Individually listed on the National Register of Historic Places.
3	Appears eligible for individual listing.
3D	Appears eligible for listing only as a contributor to a potential National Register district.
3/3D	Also appears individually eligible.
4	May become eligible for _____ when:
	<ul style="list-style-type: none"> a. More historic or architectural research is performed. b. The property is restored to an earlier appearance. c. More significant examples of the property's architectural style are demolished. d. The property becomes old enough to meet the Register's 50-year requirement.
5*/5D	Appears individually eligible for local landmark designation.
6	None of the above.
NR	Not rated.
The above categories are National Register Standards presented to Council in 1988 as part of the Johnson and Humann Report.

CITY OF HUNTINGTON BEACH GENERAL PLAN

PLATE HCR-1

Local Landmarks

Selected Buildings such as this one on the Huntington Beach High School campus, have been given a local city landmark designation.

Bartlett Park

Created to provide a preservation home for community historic structures subject to demolition. Insufficient funds have prevented total relocation at a permanent location.

HISTORIC
RESOURCES

CITY OF HUNTINGTON BEACH GENERAL PLAN

PLATE **HCR-2**

Newland House - 19820 Beach Boulevard

On a high bluff overlooking the lowlands of Huntington Beach stands the home built by William and Mary Newland in 1898. The white frame house located on Beach Boulevard at Adams Avenue is the City's best preserved and most historically significant example of the late Victorian period. Here the Newland's resided for 54 years, established a large, highly productive ranch and helped to pioneer the City of Huntington Beach through their contributions in the fields of education, business, community and social service.

Helm House Furnishing Company - 513-519 Walnut Avenue

Constructed in 1904, the building is the only pre-1910 commercial building in Huntington Beach to retain its original architectural integrity. It is the last Western Falsefront building in south and central Orange County. Mr. Helm moved to Huntington Beach in 1903 and built this structure to begin his business. Mr. Helm, the town's 4th mayor, contributed much to the early settlement years of Huntington Beach. The structure is in excellent condition located on its original site (near the corner of Walnut and 6th).

Helm-Worthy House - 126 Sixth Street

The Helm-Worthy House is estimated to have been built about 1880. This modified Queen Anne is one of the finest pre-incorporation era houses in Huntington Beach. Moved from its original site in Santa Ana in 1903, the house retains much of its historic integrity. The house's significance is promulgated by its association with prominent persons who helped shape Huntington Beach's history, as a good example of pre-1900 architecture, and its place in the broad patterns of the City's history. The Helm-Worthy house, which sits adjacent to the Helm House Furnishing Company, was placed on the National Register in 1987. The Helm-Worthy House is listed with the Helm House Furnishing Company on the National Register.

Garner House - 114 Pacific Coast Highway

The Garner House, constructed in 1905, is a fine example of coastal architecture in a Craftsman Bungalow style. It features a deeply bellcast gabled roof with front-facing gable features. This building was listed on the National Register of Historic Places in 1982.

c. Potential National Landmarks

The City's downtown historic survey of 1986 identified 103 structures that are considered to be potentially eligible for listing on the National Register. Among the 103 identified in the survey report, eleven buildings in the commercial core and immediate adjacent areas are potentially eligible due to their architectural character. Although the survey only included the downtown area, there is a high probability that areas not studied are also potentially eligible. Since the date of the survey, many potential national landmarks have been torn down. Please see a discussion in Section "e" below.

d. Potential Historic/Conservation Districts

Generally termed as historic district, these collections of buildings maintain a feeling and association of the past by their internal coherence and integrity. In other words, the buildings relate to one another in the same way that they did originally.

The Historic Survey of 1986 identified three (3) potential historic districts within the downtown area. They are as depicted on **Figure HCR-1** and are discussed below.

Main Street/Downtown

The Main Street Historic District incorporates the 200 block of Main, the 200 and 300 blocks of Fifth Street and cross street buildings on Olive Avenue between Third and Fifth Streets. This district includes both commercial and residential buildings and reflects the early small town development of the City. The Main Street District includes approximately 22 pre-1940 buildings of which ten are rated as contributing or significant buildings. Another nine buildings are possible contributors if existing non-historic remodelings are reversed.

Although the district is no longer eligible for National Register consideration because of the extreme modifications and demolitions which have recently occurred, preservation efforts within the City's core can provide a strong focal point for the community. Since the proposed historic district is within the City's Redevelopment area, programs of low interest loans or grants may be feasible to encourage owners to upgrade and preserve the integrity of their buildings.

Ninth Street Area

The Ninth Street Historic District incorporates the 300, 400, and 500 blocks of Ninth Street from numbers 310 to 511. This residential district includes mostly small Craftsman and Spanish Colonial Revival houses built in the 1910's and 1920's, which represent typical worker's cottages in the City's early development.

Wesley Park

The Wesley Park Historic District incorporates an irregular boundary focused primarily on the 200 block of Main Street and the 200 and 300 blocks of Crest Avenue. Also included are adjacent areas such as the 600 and 700 blocks of 7th and 8th Streets, areas on 11th Street across from Farquar Park, and the east side of Main Street up to Tenth Avenue. This area includes many of the City's early homes which were moved to Wesley Park after the 1926 town lot oil boom. Many of the most significant historic residential buildings remaining in the City are located within this area.

e. Vulnerability to Change

Since the historic survey was completed for downtown Huntington Beach in 1985, a significant number of Huntington Beach's historical resources have been destroyed and/or demolished. Of the three potential historic districts identified by the 1986 survey, two are no longer eligible for National districts as a result of subsequent demolitions and renovations.

The downtown historic resources are extremely vulnerable to change. The commercial areas, specifically Main Street, are experiencing extreme development pressures to intensify their land uses due to escalating land values.

Older residential areas are also experiencing an increased intensification of development. Much of the one-story beach cottage character of downtown has changed to larger three-story beach houses. With the development activity occurring in areas of the City with significant historical resources, the City must decide the importance of these resources and what direction should be taken to preserve those elements critical to the character of the City, either onsite or through a historic relocation program.

The Downtown Specific Plan calls for the creation of a mixed use/commercial intensity use along Main Street and Pacific Coast Highway. The zoning allows commercial uses to be three to six stories high, thus applying significant development pressure on smaller, older structures in the vicinity. Secondly, the plan identified over 50 percent of the structures in the study area as seismically unstable, stating they must ultimately be improved to meet seismic standards or be demolished.

f. Availability of Funds

Insufficient funds presently exist for the adequate preservation and/or relocation of significant historical resources within Huntington Beach. The activities of the Huntington Beach Historical Society are predominantly funded through private donations and local volunteers. The Historical Society utilizes most of its time and resources to support the operations and maintenance of the Newland House.

A location needs to be provided for relocated historical structures. Limited funds were available for moving a few homes to Bartlett Park, however, insufficient funds have prevented relocation of all structures and the park has suffered from vandalism.

B. CULTURAL RESOURCES

1. Introduction

Over the past twenty years, the City has made great strides in addressing the provision of arts and cultural services to residents and visitors. A Cultural Master Plan was adopted in 1994 guiding the development of cultural services and facilities. In addition, the City has begun to develop the cultural infrastructure that can provide the range of services residents require. While the cultural life of Huntington Beach is quite active, the addition of the new wing of the Huntington Beach Public Library and Cultural Center and the imminent opening of the Huntington Beach Arts Center lend a new, high visibility focus for culture that will have an impact on residents and the entire region. This strengthened activity relating to arts and culture is a result of the local residents' desire for a higher profile for arts and cultural activity.

The city is a composite of identities - "surf", "oil", environmentalism, multiple histories of indigenous inhabitants, agriculture, revival meetings, rail and other transportation links. All these serve as the building blocks of an exciting and vibrant cultural context offering much to residents and visitors.

The revitalization of Main Street and its cultural amenities has brought a new image and vitality to downtown Huntington Beach. This area has an assortment of historic structures that enhance a sense of history for both resident and visitor and provide the foundation for a strong community image.

2. Existing Conditions

a. Cultural Facilities, Artists, and Arts Groups

There are a number of cultural facilities in Huntington Beach, including multi-faceted visual and performing arts spaces, historic sites, and outdoor facilities. With the recently opened annex to the Huntington Beach Public Library and Cultural Center and the anticipated opening of the Huntington Beach Arts Center in 1994, cultural activities in Huntington Beach will have a strong and visible presence.

The vitality of the artists and arts groups comprise an active and focused cultural scene in the city. Although there are few large or highly structured arts and cultural organizations in Huntington Beach, there is a core of local artists, both professional and amateur, as well as many arts groups that are conducting a wide array of high-quality programs:

- The soon-to-be opened Huntington Beach Arts Center is a community arts facility that will provide local citizens and a regional audience with opportunities for exposure to and involvement in the visual arts. It will have three gallery spaces, a studio, classrooms, meeting rooms, and a bookstore and gift shop;
- The City's Parks and Recreation program includes arts and crafts classes held in parks and community centers throughout the city;
- The Huntington Beach Public Library and Cultural Center, with its new wing devoted to children, also includes a 300-seat theater, several meeting and classrooms.
- The Huntington Beach Playhouse is a thirty-year old community theater now performing in the new theater at the library. The group presents 16 performances of six shows during the year as well as an outdoor Shakespeare series in Huntington Central Park and a children's Christmas program;
- The Newland House Museum is a showcase of local history operated by the Historical Society and the city. In addition to exhibition space in its restored building and barn, there is outdoor space for additional exhibits and special events in the area between the house and barn;
- The International Surfing Museum opened in its first location in 1988 and is presently in a 2,000 square foot renovated space in the downtown. Plans to build a new, state-of-the-art museum facility are currently developed, and funding is being sought. A "Surfing Walk of Fame" is being established and has received much attention in the international surfing community;
- Golden West College has a wide range of cultural facilities and active instructional programs in the arts with an emphasis on both traditional and electronic forms of most artistic media. Its program of theater production currently includes about 40 percent non-student actors;
- The Huntington Harbour Philharmonic Committee has an active program of fund-raising for the Orange County Performing Arts Center. In addition, the Committee provides a range of programs for public school children, including in-school programs and bus trips to the Performing Arts Center;
- The Huntington Beach Concert Band performs in venues around Orange County. With about seventy-five members, half of whom are from Huntington Beach, the band has played at City Council meetings, ground-breakings, concerts in Huntington Central Park, and other locations. It is the only band of its type in Orange County not supported by a school district;

- The School for the Performing Arts at Huntington Beach High School currently has an enrollment of approximately three hundred students and offers classes in dance, theater, music, and television production; and
- A wide range of other groups, including the Arts Associates and the Huntington Beach Art League, are also active in the community. Many arts and historic groups in the city function on a volunteer basis, without paid staff or permanent facilities. Artists have generally not been able to work in the city, primarily because of the cost of renting space and the lack of professional venues in which to exhibit and perform their work.

b. Resources for Arts Education

The quality of arts education in Huntington Beach depends in large measure on the particular school and school district that a child attends. In part, because there are four school districts in the city, the range and quality of offerings vary.

Elementary and middle schools rely on classroom teachers to integrate the arts (as a teaching tool) into the curriculum. Middle schools' visual arts, music, band and choir specialists are shared within districts. All four high schools have basic instruction in some of the performing arts (generally, some combination of choir, band, drama, and dance) with faculty shared among them. Each school has visual arts programs that are run by two visual arts specialists. The School for the Performing Arts at the Huntington Beach High School was established to provide advanced performing arts classes and ensembles at the high school level. It offers a wide array of arts experiences to students citywide.

While the primary opportunity for providing arts education experiences for children lies with the public schools, there are additional opportunities directed toward children and older residents. The City has several programs that have an impact on arts and cultural education.

The City's HBTV Channel 3 offers a talk show about the arts. The new Huntington Beach Arts Center will offer interpretive programs, school tours, and workshops in various media, disciplines and issues. The Recreation, Beaches, and Development Division of the Community Services Department offers extensive classes in centers throughout the city, although there are relatively few classes in visual and performing arts. Few, if any, classes are offered for teens and adults. Classes for children include some crafts and dance.

The Huntington Beach Public Library and Cultural Center offers a range of cultural programs. There is a new children's wing, but because of budgetary constraints, the amount of cultural programming is limited. Rental fees for using the facilities are out of range for smaller cultural groups.

Nonprofit arts and cultural groups in Huntington Beach have played an important role in providing educational opportunities for school children. Among the activities that have been provided are:

- The Huntington Harbour Philharmonic Committee, in addition to raising money for the Orange County Performing Arts Center, coordinates field trips to the center for a variety of tours and performances. They also bring ensembles into the schools for assemblies that can include performance and demonstrations of instruments. They sponsor the "Music Mobile" which travels to elementary schools to introduce third graders to musical instruments;

- The Newland House Museum offers tours of its facility to schools, primarily third and fourth graders who are studying local and California history. In addition, the Historical Society offers special 2 hour tours of the facility; and
- The Japan America Society has developed a cultural program for schools, building on the Sister City Program.

c. The Role of the Cultural Services Division & Advisory Board of the City of Huntington Beach

The Cultural Services Division is responsible for an array of activities, including oversight of construction and program development for the new Huntington Beach Arts Center and overseeing historic and cultural programs in the community. At the present time, its primary roles are that of manager of many of the city's existing arts programs and presenter of visual arts activities. There are other roles of the division, including serving as a "catalyst" to assist local arts groups in promotion, location space, fund-raising for cultural projects, and capital project oversight.

The Allied Arts Board is designated to advise City Council on all matters pertaining to the arts in Huntington Beach. It was responsible for developing the initial ten-year plan for cultural activities that led to the establishment of the Cultural Services Division as well as other important milestones in the development of the cultural life of the city. Along with the Historic Resources Board (which oversees historic programs and activities), the Allied Arts Board, in its role as advisor to the City Council, can, among other things, study and interpret the needs of the community for cultural programs and facilities; recommend cultural policy on such matters as programming, facilities, and funding; assist local arts groups to better fulfill their missions; and encourage individuals, civic groups, and businesses to support arts and culture with time, money, and in-kind services.

The master plan provides an overview of key issues and a "vision statement" for culture in the city. It presents a series of recommendations on the priorities for culture, addresses the role of the Cultural Services Division, identifies the necessary resources to realize the goals articulated through the recommendations, and describes steps toward implementation by the city and arts advocates and organizations.

d. Funding for the Arts and Culture

Huntington Beach has been generous in its support of arts and cultural activities. The recent history of private sector financial support for the Huntington Beach Arts Center, as well as the city's funding of the Cultural Services Division over the past eight years, indicate a trend of increased support.

Huntington Beach has some very effective, private-sector fund-raising initiatives. The Huntington Harbour Philharmonic Committee raises money, some of which goes to support local educational experiences for children around certain types of music. The Huntington Beach Arts Center Foundation has raised significant sums of money in support of the construction and programming at the Huntington Beach Arts Center, some of which will involve educational programs for children. Fund-raising in Huntington Beach has historically been focused on "bricks and mortar" capital funding.

The downtown and the Pacific coast areas have been designated as “visitor serving” in the General Plan. The City is committed to developing destination attractions and activities in those areas, most of which are seen to be related to arts and culture. These attractions and activities include the Huntington Beach Arts Center, the planned Celebration Plaza, arts and craft fairs and festivals, and concerts in Pier Plaza and Huntington Beach Central Park Amphitheater. These attractions are bringing visitor dollars to the targeted areas, increasing foot traffic and bringing consumers that increase retail sales.

e. Urban Design, Aesthetics, and Public Art

While the City and the various community groups have taken action to develop a pleasing urban environment, the visual appeal and feel of the city remain key concerns for many residents. Residents would like to see a concerted effort undertaken to improve this important aspect of the community. Issues regarding landscape and plant selection, hardscape design, building materials, public space allocation and the inclusion of public arts are but a few of the issues raised.

ISSUES

1. A citywide inventory of historic resources has never been conducted. A historic inventory would help identify all structures and sites critical to the overall historic character of the community. *(HCR 1.1.1)*
2. The City has given local landmark designation to some historically significant structures, however no standards, requirements or guidelines have been created to preserve or protect them. *(HCR 1.1.4, HCR 1.2.2, HCR 1.2.3, HCR 1.2.4, and HCR 1.3.7)*
3. In the event that historical structures are unable to remain at their current sites, the City should establish a relocation site or “historical park.” *(HCR 1.2.1, and HCR 1.2.3)*
4. Downtown commercial and residential areas are experiencing extreme development pressures to intensify their land uses. No guidelines exist to protect and/or restore the historic character of these older areas. As a result, older structures are being demolished for the construction of new buildings. The City is losing the historic character of the area. *(HCR 1.1.3, HCR 1.1.4, HCR 1.2.1, HCR 1.2.3, HCR 1.2.4, HCR 1.3.3, HCR 1.3.4, HCR 1.3.6, and HCR 1.3.7)*
5. Adaptive reuse has been underutilized and should be promoted. *(HCR 1.3.6)*
6. The City’s per capita income and education levels are among the highest in the nation. These demographics suggest a population likely to have high expectations for services, particularly in the area of arts and cultural activities. *(HCR 2.2.1, and HCR 3.2.2)*
7. Most of the support for arts and culture has come from a relatively narrow spectrum of Huntington Beach residents. The percentages of younger families, children and youth, and the populations of Latino and Asian residents are increasing. As a result, the mix of arts and cultural programming will have to be designed to meet the needs of a demographically diverse audience. Much of the thrust of the Cultural Master Plan involves recognizing the necessity to reach new constituencies, to broaden the programming offered and to identify new sources of financial and political support for the full range of cultural activities. *(HCR 2.2.1 and HCR 3.2.2)*
8. One of the major problems facing cultural and historic groups is the difficulty in obtaining information about access to facilities and financial resources. While the Cultural Services Division has an extensive collection of publications on arts issues, historic services, and fund-raising, access to that information is limited. *(HCR 2.1.1 and HCR 2.2.2)*

9. There is a lack of a ready means of communication within the arts community. It will be important to develop mechanisms to address this need for better communication, to allow for more effective sharing of information among artists and groups, and to inform a wider public of cultural activities in the arts community. *(HCR 2.1.1 and HCR 2.2.2)*
10. The ability of small, volunteer cultural/historic groups to handle the managerial aspects of their operations is often limited. This is partly due to a lack of sufficient time or grounding in business, space development, and tenant/landlord skills. *(HCR 2.1.2)*
11. Recently constructed arts facilities will require time to become fully operational and their impact on the cultural community is necessarily difficult to assess. Additional cultural facilities will ultimately be required to address the full range of community needs. *(HCR 5.2.2)*
12. Examples of currently underutilized performing arts facilities are:
 - Golden West College has a large amphitheater with seating for about 1,000; it is only minimally used. It would require stage and technical support improvements to make it more useful;
 - The Huntington Beach High School Auditorium, seating about 700, is heavily utilized during the school year; however, it is available during the summer months and might be more fully utilized then. Rehabilitation work is needed for the facility to function more effectively for school and community use;
 - The Huntington Beach Public Library and Cultural Center's utility for arts and cultural groups is presently limited by the lack of staff available for programming and the relatively high rental fees charged to arts and cultural groups for their use;
 - The grounds of the Newland House Museum and Newland Barn could be used for additional cultural and/or historic programming. However, the lack of space for collections and archives warrants the development of a local museum centrally located; and
 - Existing theatrical spaces are heavily used, so it is clear that there is interest in theater. However, there is little performing space available for programming smaller bilingual, multi-cultural performances and experimental productions. Renovation of outdoor amphitheaters in city parks is needed to allow for a broader range of programming, increased use by local organizations and increased safety and comfort of audiences. *(HCR 5.1.1, HCR 5.1.2, and HCR 5.2.2)*
13. Providing opportunities for artists to live and work in Huntington Beach is important to the long-term growth of the city's cultural life. There are no affordable artists' spaces for living and working in Huntington Beach in lower cost space in industrial and/or business parks outside of the downtown core or vacant downtown buildings. *(HCR 5.2.4)*
14. There is a need for outdoor interpretive centers to address several aspects of the city's history, notably the Bolsa Chica wetlands and the Native American populations. *(HCR 5.1.1)*
15. While the City is not responsible as the lead public entity to provide arts programs for school age children and youth, it has been a strong advocate for increased attention in this area. The public schools in Huntington Beach have cut back programming in arts education in order to address severe budget problems. The issue of lack of access to arts training and appreciation course has affected other curriculum efforts to enhance learning in the classroom, to improve school attendance, and to enhance the self-esteem of students, particularly youth at risk. *(HCR 4.1.2)*

16. Currently, there is no one coordinating or fostering long-term relationships between professional artists and the public schools. In the elementary schools, for example, programs are either enrichment assemblies or field trips or are provided by classroom teachers rather than professional artists. *(HCR 4.1.2)*
17. Because of the music education programming of the Huntington Harbour Philharmonic Committee and its fund-raising to support those programs, the City's students have access to a range of musical experiences. But, while activities in this discipline are provided on a consistent basis, others (in particular, drama and the visual arts) are not, unless they are offered on an ad hoc basis by particular teachers or parents. *(HCR 4.1.2)*
18. Without comprehensive funding for arts and culture in all parts of the city, it is very difficult to equitably address the needs of the community. A current priority is the need of the Huntington Beach Arts Center to get its programming in place and develop a secure base of endowed support. *(HCR 5.1.2 and HCR 5.2.3)*
19. The City has been very supportive of cultural activities, responding to impressive community support and fund-raising; yet these very programs are expected to fulfill a no-net-cost requirement. The Cultural Services Division is designated as the City's local arts agency and, as a result, is eligible for significant funding available through state and federal sources to such agencies. *(HCR 5.2.3 and HCR 5.1.4)*
20. The visitor industry is seeking ways to promote Huntington Beach as a destination. While it is unlikely at the current time that the City's arts groups will be a primary reason for a visit, they certainly can contribute to a lengthened stay. The potential for cultural tourism may provide opportunity for additional funding partnerships. *(HCR 5.2.1)*

GOALS, OBJECTIVES, AND POLICIES

The following section presents the goals, objectives, policies, and programs for Historic and Cultural Resources in the City of Huntington Beach. At the end of each policy is a reference to the appropriate implementation program. Each implementation program's schedule and possible funding sources are indicated in the Historic and Cultural Implementation Matrix.

Historical Resources

Goal

HCR 1

To promote the preservation and restoration of the sites, structures and districts which have architectural, historical, and/or archaeological significance to the City of Huntington Beach.

Objective

HCR 1.1

Ensure that all the City's historically and archaeologically significant resources are identified and protected.

Policies

HCR 1.1.1

Identify all the historically and archaeologically significant resources in Huntington Beach. (*I-HCR 1*)

HCR 1.1.2

Consider the designation of any historically significant public trees, archaeological sites, or structural sites or areas deemed to be of historical, archaeological, or cultural significance as a Huntington Beach City Historical Point, Site or District. (*I-HCR 1*, and *I-HCR 2*, *I-HCR 3*.)

HCR 1.1.3

Consider establishing a historic overlay for historic structures throughout the City. The overlay should be structured to allow the underlying land use to continue through the reuse of the historic structure. (*I-HCR 1*, *I-HCR 3*, *I-HCR 5*, and *LU 15.3.1*)

HCR 1.1.4

Consider recording the importance of oil history in the City's development. (*I-HCR 1*)

Objective

HCR 1.2

Ensure that the City ordinances, programs, and policies create an environment which fosters preservation, rehabilitation, and sound maintenance of historic and archaeological resources.

Policies

HCR 1.2.1

Utilize the Secretary of Interior Standards for Historic Rehabilitation and standards and guidelines as prescribed by the State Office of Historic Preservation as the architectural and landscape design standards for rehabilitation, alteration, or additions to sites containing historic resources in order to preserve these structures in a manner consistent with the site's architectural and historic integrity. (*I-HCR 1*, *I-HCR 3*, and *I-HCR 5*)

HCR 1.2.2

Encourage new development to be compatible with adjacent existing historic structures in terms of scale, massing, building materials and general architectural treatment. (*I-HCR 6*)

HCR 1.2.3

Investigate the appropriateness of expanding the "receiver site" program. (*I-HCR 1*)

HCR 1.2.4

Investigate the feasibility of initiating an "adopt a building" program to preserve historic structures that would be removed from their sites. (*I-HCR 1*)

Objective

HCR 1.3

Consider the provision of incentives (strategies, assistance, and regulations) for the maintenance and/or enhancement of privately owned historic properties in a manner that will conserve the integrity of such resources in the best possible condition.

Policies

HCR 1.3.1

Encourage owners of eligible historic income-producing properties to use the tax benefits provided by the 1981 Tax Revenue Act. (*I-HCR 1*)

HCR 1.3.2

Consider the waiver of building permit fees for owners of small properties with historic resources who are unable to benefit from other government programs for the rehabilitation, alteration or reuse of their structure(s) only if rehabilitated in accordance with established historic preservation guidelines. (I-HCR 1)

HCR 1.3.3

Consider allowing flexibility in building code requirements for the rehabilitation of historic structures as specified in State Historical Building Code Part 8, Title 24 if rehabilitated in accordance with established historic preservation guidelines. (I-HCR 1)

HCR 1.3.4

Provide appropriate technical advice to private property owners seeking to restore historically significant structures. (I-HCR 1)

HCR 1.3.5

Advocate that local lending institutions provide appropriate financing for the rehabilitation and restoration of historically significant structures. (I-HCR 7)

HCR 1.3.6

Encourage appropriate adaptive reuse of historic resources in order to prevent misuse, disrepair and demolition, taking care to protect surrounding neighborhoods from incompatible uses. (I-HCR 1)

HCR 1.3.7

Explore alternatives that enable a property owner to sensitively add to the existing structure, or develop an accompanying building on the site that allows property development rights to be realized. Deviation to setbacks, heights and parking requirements should be considered to make the preservation of an existing historic building feasible when no other reasonable alternative exists. (I-HCR 1 and I-HCR 6)

Objective

HCR 1.4

Promote public education and awareness of the unique history of the Huntington Beach area and community involvement in its retention and preservation.

Policies

HCR 1.4.1

Encourage the promotion of the City's historic resources in visitor and tourist oriented brochures. (I-HCR 8)

HCR 1.4.2

Promote community awareness of historic preservation through Huntington Beach's appointed and elected officials, the Community Services Department, the Library Services Department, and local organizations. (I-HCR 8)

HCR 1.4.3

Encourage the involvement of the local schools and Goldenwest College in preservation programs and activities. (I-HCR 8)

HCR 1.4.4

Consider Combining sites containing historic features (interpretive centers) with recreational learning opportunities. (I-HCR 9)

HCR 1.4.5

Encourage the provision of uses that are conducive to public use and education in historic structures. (I-HCR 1, and I-HCR 4)

Cultural Resources

Goal

HCR 2

Develop avenues for communication and participation in arts and cultural activities and programming to bring together diverse segments of the community.

Objective

HCR 2.1

Improve access to arts and cultural activity for all residents and assist in networking information of cultural activities.

Policies

HCR 2.1.1

Assist cultural groups in networking and bringing artists and arts organizations together. (I-HCR 10 and I-HCR 12)

HCR 2.1.2

Provide technical assistance to historic, cultural groups and artists. *(I-HCR 11)*

Objective

HCR 2.2

Raise the community's awareness of the full range of arts, history, and culture available in Huntington Beach.

Policies

HCR 2.2.1

Provide opportunities for increased exposure for arts and cultural activities throughout the city. *(I-HCR 12 and I-HCR 13)*

HCR 2.2.2

Facilitate networking between arts and cultural groups and the general public. *(I-HCR 12 and I-HCR 13)*

Goal

HCR 3

Highlight the City's unique cultural heritage and enhance its visual appeal.

Objective

HCR 3.1

Promote a high standard of visual quality of art, architecture and landscape architecture in the public realm.

Policies

HCR 3.1.1

Increase community representation and input into the decision making about arts and culture. *(I-HCR 1, U..D. 1.4.1, and I-UD 5)*

HCR 3.1.2

Consider that individuals advising the City on cultural, urban and visual design issues have a background in architecture, urban design, or fine arts. *(I-HCR 1 and U.D. 1.4.1)*

HCR 3.1.3

Encourage urban design and public art projects to enhance the image of the City and foster a sense of place. *(I-HCR 1, I-HCR 14, and U.D. 1.4.1)*

Objective

HCR 3.2

Clarify and highlight the cultural heritage and identities of Huntington Beach for residents and visitors.

Policies

HCR 3.2.1

Preserve and reuse historically significant structures, where feasible. *(I-HCR 3 and I-HCR 7)*

HCR 3.2.2

Consider providing educational opportunities that focus on the City's cultural history. *(I-HCR 1, I-HCR 3, and I-HCR 8)*

Goal

HCR 4

Expand opportunities for the City's children to receive quality experiences of arts and culture.

Objective

HCR 4.1

Strive for a full range of performing and visual arts, educational programming and experiences to children throughout the city.

Policies

HCR 4.1.1

Seek support for arts education. *(I-HCR 8)*

HCR 4.1.2

Strive to broaden cultural opportunities for children. *(I-HCR 8)*

Goal

HCR 5

Establish a wide range of arts and cultural programs and facilities that address the needs and interest of residents, workers, and visitors.

Objective

HCR 5.1

Ensure adequate facilities, staff, and funding for all city provided arts programs.

Policies

HCR 5.1.1

Assure that existing cultural facilities in Huntington Beach are used effectively. *(I-HCR 8 and I-HCR 12)*

HCR 5.1.2

Advocate partnership agreements for capital projects. *(I-HCR 1, I-HCR 8, I-HCR 10, and I-HCR 12)*

HCR 5.1.3

Identify and consider the interests of the community while planning new cultural facilities. (*I-HCR 8, I-HCR 10, and I-HCR 12*)

HCR 5.1.4

Consider a permanent funding mechanism to support the local art agency. (*I-HCR 13*)

Objective

HCR 5.2

Facilitate the growth of the arts and cultural community.

Policies

HCR 5.2.1

Encourage the participation of new audiences for arts and cultural activities. (*I-HCR 8, I-HCR 13, and I-HCR 16*)

HCR 5.2.2

Coordinate and cooperate with other city departments and interest groups with the planning for existing and new public cultural amenities. (*I-HCR 17*)

HCR 5.2.3

Assist in the development of partnerships among arts groups and the business community. (*I-HCR 8 and I-HCR 12*)

HCR 5.2.4

Encourage opportunities for artists to live and work in Huntington Beach. (*I-HCR 1*)

IMPLEMENTATION PROGRAMS

I-HCR 1

Studies/Mapping/Surveys

- a. Perform an expanded (Citywide) survey which updates the list of structures or sites identified as having historical or archaeological significance.
- b. Review existing criteria for surveying resources and revise the criteria, as appropriate.
- c. Conduct a study investigating the feasibility of creating new or expanding "receiver sites" and creating an "adopt a building" program. (An "adopt a building" program includes corporate or civic group's sponsoring the refurbishing, rehabilitation, and continued upkeep of a historic structure).
- d. Study the feasibility of enacting a program to provide incentives for preservation, restoration, rehabilitation or relocation of historic resources through purchase of facade easements, waiver of fees, flexible building requirements, adaptive re-use, rehabilitation loans and grants, and technical advice by person(s) qualified in historic preservation, restoration techniques, and loans and grant programs, receiver site and building and siting regulations.
- e. Examine the feasibility of establishing a historical resource center which acts as an archive and clearinghouse of artifacts and resource documentation and provides learning opportunities for the public.
- f. Explore the feasibility of relocating the Historical Society's city archives to an accessible location such as the downtown.
- g. Consider developing an oil history museum or interpretive center.
- h. Determine and implement a mechanism to broaden resident representation and input into urban design and aesthetic concerns to appropriate boards and commissions.
- i. Explore the development of a plan for a phased- in "cultural corridor" including the areas surrounding Golden West College, Huntington Central Park, Main Street Library, Main Street and the Art Center to the Pier. The plan shall consider such things as:
 - developing a uniform visual identity through street banners and signage and public improvements; and
 - identifying potential sites for City-sponsored public artwork.
- j. Explore designating historic and/or architecturally significant points, structures, sites and districts with a Historic Overlay Land Use Designation.
- k. Explore the development of a local cable program series highlighting the community's history.
- l. Explore the feasibility of developing a local Native American peoples interpretive center.

- m. Explore if there is sufficient programming and audience for a small, flexible (or “black box”) theatrical space in the downtown, geared toward multi-purpose usage and small, experimental productions.
- n. Determine the nature of public and private support for the proposed International Surfing Museum.
- o. Explore shared, and affordable, “work/live” space for artists and arts groups.

I-HCR 2

Municipal Code/Design Guidelines

Utilize the State of California Historic Building Code to accommodate the rehabilitation of historic and older structures.

I-HCR 3

Preservation Ordinance

Consider the creation of a Preservation Ordinance. The Preservation Ordinance shall:

- a. enable the City to designate any site deemed historically, archaeologically, or culturally significant as a historic point, structure, site, or district;
- b. establish design guidelines and standards for preservation, adaptive re-use, etc.;
- c. establish criteria and procedures for creating new historic overlay areas; and
- d. conform to State and Federal criteria for establishing a preservation ordinance.

I-HCR 4

Land Use Element

Implement land use programs as cited in I-LU 1, I-LU 7, AND I-LU 14.

I-HCR 5

Rehabilitation and Preservation Standards

Maintain on file the Secretary of Interior Standards for Historic Rehabilitation and the standards and guidelines of the State Office of Historic Preservation as guidelines on restoring, altering or adding to designated historic structures.

I-HCR 6

Design Review/Permitting Process/Environmental Review

- a. Review existing design standards and guidelines to ensure they are conducive to compatible development, if warranted, revise the design standards.
- b. Review the impacts of zoning changes and General Plan amendments on historic preservation objectives and, if warranted, revise the proposed zone change or Plan amendment to reflect the historic preservation objectives.
- c. Continue the current procedures for reviewing all demolition permit applications for historic structures.

I-HCR 7

Historic Resources Funding

Work with local lending institutions in developing a financing program or other programs to provide financial assistance benefiting owners of historic resources who can prove a need for financial assistance in connection with historic preservation.

I-HCR 8

Interagency Participation and Coordination

- a. Work with the Huntington Beach Conference and Visitor’s Bureau on developing brochures, self-guided walking tours, traveling exhibits promoting the historical resources of the City.
- b. Work with the local school districts, local preservation programs, libraries, and community centers to:
 - develop and promote preservation classes, activities and programs;
 - enhance the range and scope of arts educational programming offered by the City, including:
 - a cultural programs for cable television,
 - a youth oriented calendar of arts and cultural events, and
 - an artist residencies program located in community centers and other youth oriented facilities throughout the City; and

- provide art and historic classes accessible to a diverse range of residents.
- c. Work with local preservation organizations to develop a historic building handbook that describes historic structures, sites, and districts, and provides information on building research and appreciation, and sets forth guidelines for rehabilitation as funds are available.
- d. Coordinate with local historic preservation organizations such as the Historical Society.
- e. Work with other City departments to develop a plan to assure that existing arts and cultural facilities are rehabilitated and maintained as feasible.
- f. Coordinate proposals for new facility needs with the Central Park Master Plan's proposed additional outdoor performing arts spaces, and the Beach Master Plan's proposed arts and cultural programming in the Pier Plaza area.
- g. Establish a high-level, inter-agency working group of senior staff from appropriate City departments to coordinate cultural initiatives.
- h. Link cultural tourism objectives through promotional tie-ins and special events with a cultural focus or component.

I-HCR 9
Recreation and Community Services Element

Implement Parks and Recreation policies and programs as cited in RCS 1.1.2 and I-RCS 2.

I-HCR 10
Arts/Cultural Resources Network

Develop systems and networks to provide access to information resources, such as:

- a. a community arts, culture, and history newsletter;
- b. a clearinghouse cataloguing and registering temporary and permanent spaces available for arts and cultural use;
- c. a centralized event clearinghouse;
- d. an artists' register available for an art in public places program, gallery owners, presenters, and others with resumes, slides or tapes; and
- e. a media production resource list.

I-HCR 11
Technical Assistance Programs

Develop technical assistance programs to train community arts, cultural, and historic groups in, but not limited to, the following:

- a. running a small organization - financial management, fund-raising, marketing and long-range planning;
- b. developing partnerships and joint ventures with private businesses, City agencies and others; and
- c. planning to assess community interest and identify and encourage new audiences.

I-HCR-12
Business Leader, Art Administrators, and Resident Outreach

- a. Develop a private sector group of business and civic leaders, arts organizations and artists to provide leadership support for arts and cultural activities.
- b. Work with community groups to develop residents' program interests.

I-HCR 13
Arts Programming

Incorporate arts and cultural events as part of existing community events and attractions, major sporting events, and community celebrations where feasible.

I-HCR 14
Public Art Ordinance

Consider the creation of a public art ordinance that encourages public and private sector involvement. The ordinance shall:

- a. identify funding sources for a formal public arts program; and
- b. utilize the existing ad hoc art program as a model.

I-HCR 15

Celebration Plaza

Continue to oversee the development and programming for the Celebration Plaza located at the intersection of Main Street and Acacia Avenue. As currently planned, the Celebration Plaza is an outside public assembly area which includes hardscape and landscape amenities connecting the Arts Center and the Main Street Branch Library.

I-HCR 16

Allied Arts Board and Historic Resources Board

Diversify the membership of the Allied Arts Board and the Historic Resources Board to include a broader perspective from all segments of the city.

I-HCR 17

Cultural Master Plan

Implement the City Council approved Cultural Master Plan, as feasible.
