November 8, 2019

STAFF REPORT: Planning Program Update
STAFF: Katie Metraux, Planner
SUBJECT: Status of Planning Efforts for State Vehicular Recreation Areas

Summary

Several planning efforts are underway within State Vehicular Recreation Areas (SVRAs). Ocotillo Wells SVRA and Hungry Valley SVRA are in the process of updating their park general plans. The Red Rock Canyon State Park General Plan, which has off-highway vehicle (OHV) recreation components, is revising their general plan. Oceano Dunes SVRA and Pismo State Beach are developing a public works plan (PWP), and three SVRAs are developing Road and Trail Management Plans. This report describes each plan's purpose, process, and current milestone.

Discussion

Following is a summary of recent SVRA/OHV general plan developments.

Ocotillo Wells SVRA:

The Ocotillo Wells SVRA General Plan team, in collaboration with Bureau of Land Management (BLM) El Centro Field Office staff, are developing a new land management plan for Ocotillo Wells SVRA/Ocotillo Wells Special Recreation Management Area. For compliance with both state and federal land management policies, the long-term land management plan for Ocotillo Wells SVRA is envisioned to be comprised of:

- a California State Park unit General Plan,
- a BLM Recreation Area Management Plan, and
- a California Desert Conservation Area Land Use Plan Amendment.

Presently, the SVRA General Plan team and the BLM El Centro staff are in discussions regarding recreation land use issues such as camping, special events, and target shooting. A consistent approach to these issues by both the state and federal

governments is crucial for the continued development of a useful and practical long-term land management plan. The mutual decisions growing out of this process may necessitate revisions to the existing Memorandum of Understanding.

Hungry Valley SVRA:

The Hungry Valley SVRA General Plan has a project website at www.PlanHungryValley.com to facilitate public involvement in the planning process. Interested parties should visit the project website and register to receive email notifications regarding project progress.

The first public meetings were held in Ventura and Newhall on February 15 and 16, 2017 and in Frazier Park and Bakersfield on February 22 and 23, 2017. The next opportunity to provide input will be for the discussion of draft guiding statements and draft planning concepts in winter 2019/2020. This information will help guide the planning process and provide the baseline for developing alternatives for site use.

Red Rock Canyon State Park General Plan:

The General Plan has a project website, www.redrockgp.com, and a project email, info@redrockgp.com. Interested parties should visit the project website.

State Parks will hold three public meetings in Ridgecrest, Lancaster, and Bakersfield to provide updates on the revision of the General Plan for Red Rock Canyon State Park. At these open-house style meetings, the planning team will present the Revised Plan Concept for the update to the General Plan, and continue to solicit feedback from interested stakeholders and agencies. Attendees will have the opportunity to visit display stations, review materials that describe the Revised Plan Concept, ask questions, and provide input. The open houses will be identical in content and format, and materials from the meetings will be available on the project website after the meetings are concluded. Meeting dates and locations are presented below.

Open House #1 – Wednesday, October 23, 2019 from 5:30 p.m. – 7:30 p.m. at the Historical Society of the Upper Mojave Desert, 230 W. Ridgecrest Boulevard, Ridgecrest, CA 93555

Open House #2 – Thursday, October 24, 2019 from 5:30 p.m. – 7:30 p.m. at the University of Antelope Valley Grand Ballroom, 44055 Sierra Highway, Lancaster, CA 93534

Open House #3 – Friday, October 25, 2019 from 5:30 p.m. – 7:30 p.m. at the Courtyard by Marriott, 3601 Marriott Drive, Bakersfield, CA 93308

In addition, a summary of public comments received during the preliminary plan concepts public comment period of March 26 to August 1, 2019, has been uploaded to the website at <https://www.redrockgp.com/resources>.

Road and Trail Management Plans

Following is a summary of recent SVRA Road and Trail Management Plans.

Eastern Kern County, Onyx Ranch SVRA began work on a Road and Trail Management Plan in May 2018. The planning team is working on gathering existing trail conditions. There will be several opportunities for public input in the near future.

Prairie City SVRA and Carnegie SVRAs are conducting trail inventories for their Road and Trail Management Plans. Prairie City SVRA held two stakeholder meetings and conducted an online survey. Carnegie SVRA will hold stakeholder meetings once their trail inventory project is complete.

Pismo State Beach and Oceano Dunes SVRA Public Works Plan

California State Parks is developing a Public Works Plan (PWP) for Oceano Dunes SVRA and Pismo State Beach. A PWP is a long-range land use and development plan. It analyzes existing conditions for park operations, recreation opportunities, coastal access, and environmental compliance; makes recommendations for improvement; and, includes future development projects and programs. The California Coastal Commission (Coastal Commission) reviews and certifies PWPs in the same manner as Local Coastal Plans as defined in Chapter 6 of the Coastal Act (starting with Public Resources Code Section 3050).

The PWP has several opportunities for public input and review throughout plan development, document review, and the environmental document review. The Coastal Commission will hold a public hearing for the draft and final plan. A contractor is preparing the PWP. There is a project website where the public can view documents, provide comments, learn about public input opportunities, and sign up for updates. The project website and email address are – www.oceanodunespwp.com, and info@oceanodunespwp.com. The next opportunity for public input will occur in winter 2019 when State Parks will present Revised Concept Alternatives.

State Parks Planning and Executive staff consult regularly with the California Coastal Commission and San Luis Obispo County staff for this project. The last meetings occurred in September 2019 and included a site visit to Oceano District with Coastal Commission Executive Staff and a meeting at the County Planning Office.
