PRAIRIE CITY
STATE VEHICULAR RECREATION AREA

OPPORTUNITIES AND CONSTRAINTS
PARKWIDE

Opportunity to create non-motorized access to Yost.

Opportunity to connect to future Class I Bike Path along White Rock Rd.

Opportunity to create non-motorized access to the park at existing Special Event Entrance.

ROV use mixed with other motorized uses in Zones 1, 2, 3, and 4, leading to safety concerns and natural resource impacts. Opportunity to provide ROV recreation experiences that are either separated from or well-integrated with other uses in Zones 1, 2, 3, 4, Yost, or Ehnisz.

Opportunity to create non-motorized access to the park at existing Special Event Entrance.

Opportunity to expand Zone 4 boundary to include Teichert Mine/The Pit area and allow ROV and 4x4 use.

Opportunity to create non-motorized access to Barton between existing slope and Teichert Easement.

Opportunity to create designated trail crossings across Main Entrance Road.

Coordinate park development with existing easements.

PRAIRIE CITY
STATE VEHICULAR RECREATION AREA
OPPORTUNITIES AND CONSTRAINTS
ZONE 1

Opportunity to develop Zone 1 to remain open during wet weather closures.

Opportunity to create designated trail connections to Yost.

Opportunity to provide camping.

Opportunity to improve circulation and safety by creating designated access points to/from the main staging area.

Opportunity to create additional designated slow, technical trails in Zone 1 with trial obstacles, taking advantage of Zone 1's cobbled terrain and short sightlines.

Opportunity to open wetland areas in Zone 1 as trail features. Confirm with potential special-status species and regulatory permitting.

Opportunity to create designated trail connections to Ehnisz.

Protect existing sensitive resources.

Coordinate track development with solar easement and haul road easement.

Coordinate zone development with Aerojet well locations.

Opportunity to create designated trail crossings across Main Entrance Road connecting to Zone 2.
