

# CALIFORNIA INDIAN HERITAGE CENTER

## General Plan

### Statewide Native American Community Outreach Meetings

California State Parks is preparing a General Plan and Environmental Impact Report for the California Indian Heritage Center (CIHC). The General Plan will guide future development and management of the CIHC. It is an important step in moving toward construction of the CIHC on a 43 acre site on the bank of the Sacramento River in the City of West Sacramento.

You will have the opportunity to learn about the project's history, its progress, and have your voice heard regarding the General Plan.

**Your input will be an important aspect of the planning process. We hope you will take some time to become involved. The meetings will be held:**
