

# MENDOCINO WOODLANDS STATE PARK

## Civilian Conservation Corps Heritage Adventure

Please be considerate of any groups using the camps.

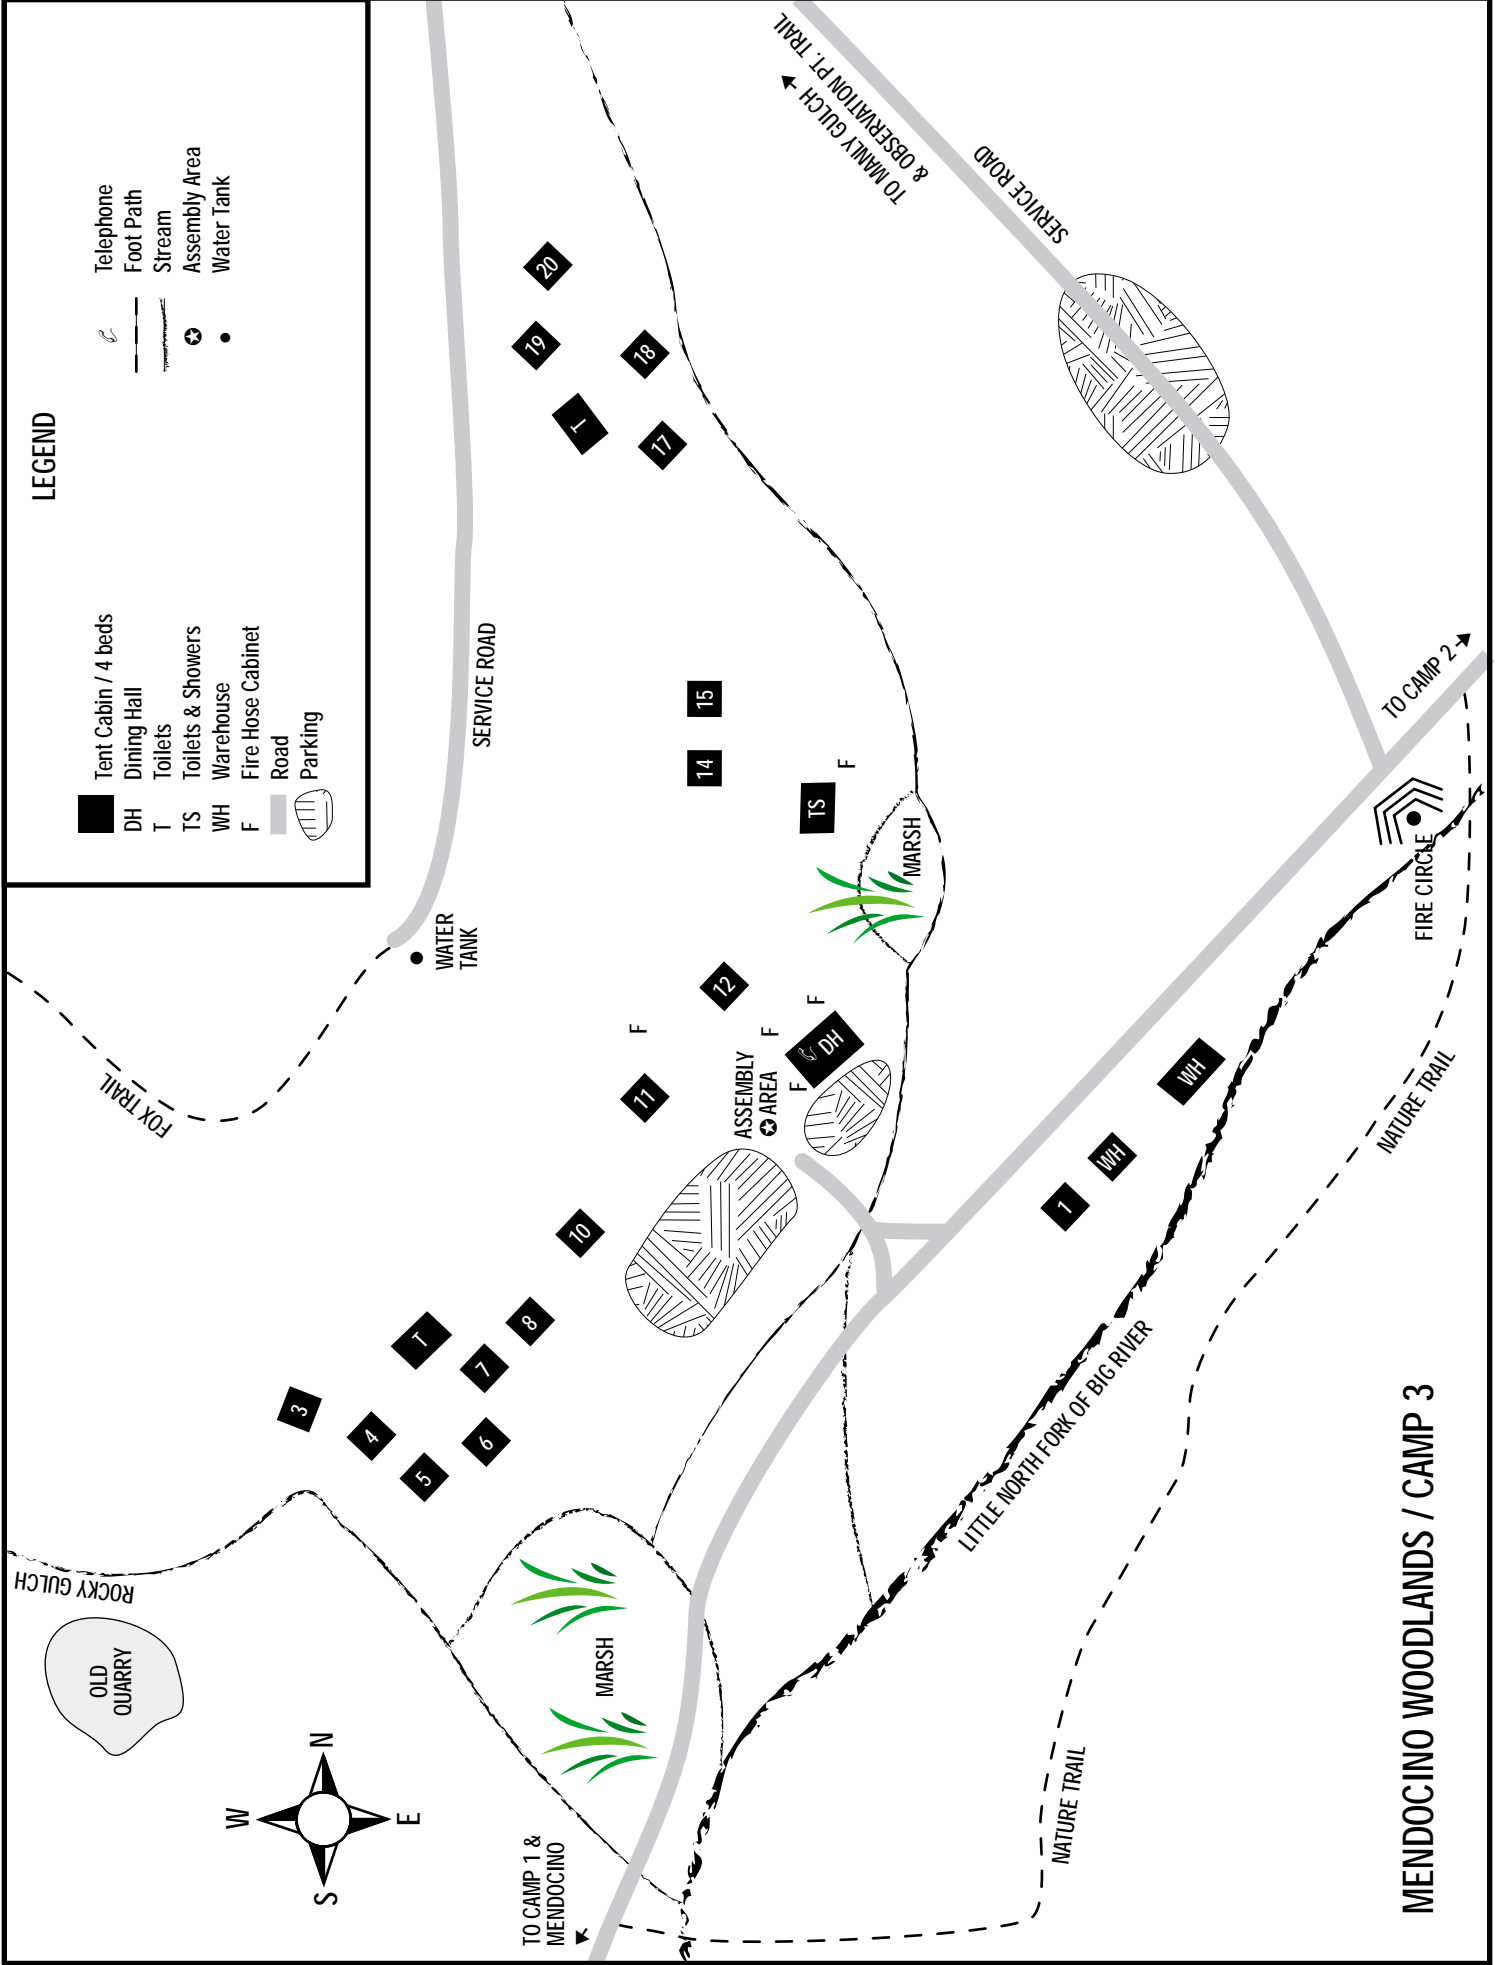

### Camp 3

Camp 3 was designed for younger children and smaller groups. It was the last of the three camps built, near the end of the CCC and WPA programs. It is much simpler than the other two camps. Instead of cabins there are tent cabin platforms, and the dining/recreation hall functions are combined in one building.

You can't see the other two camps from camp 3. Each camp was designed to feel as if it is out in the woods by itself.

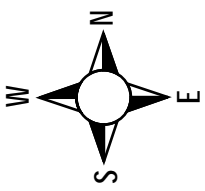

### Camp 3 Campfire Circle

You can see the campfire circle from the road. A campfire circle was one of the elements designated as important for a summer camp by the RDA planners. Other important elements included a place to swim and boat, open areas for sports such as archery and ball games, and hiking trails. Mendocino Woodlands had them all.
