VI. HISTORIC RESOURCES SHOWN ON THE “DJW MAP”

“California Redwood State Park, Developed Area Big Basin” by DJW

Plate Block: “United States Department of the Interior, National Park Service, Cooperating with California Division of State Parks”

This map, without signatures, is believed to show existing conditions in June 1940. It is apparently a draft of a map dated “June 1940, revised July 1941” by “BDH”, titled: “Big Basin Redwoods State Park, Administration Area, Showing main features of Opal Creek Plateau”. The DJW map may also be related to DPR drawing 738, showing “Roads, Trails, and Developed Areas” in the entire park at that time, “revised October 1940”, by “LHP” and unsigned.
