The primary purpose of the meeting is to receive your thoughts, ideas and concerns about the Preferred Alternative Plan and General Plan proposals which will be presented at the meeting. Following a presentation by CSP staff of the Preferred Plan, there will be a public comment period.

This is the third in a series of three public meetings held to gather public input about the General Plan, and is the final public meeting prior to development of a Draft General Plan and public hearing by the State Park and Recreation Commission to approve the General Plan (to occur in Fall/Winter 2014).

The Team encourages you to participate in the general plan process by attending the public meetings and hearings, commenting on the Draft General Plan during the upcoming CEQA 45-day public review period (occurring Spring 2014), visiting the project webpage, and emailing any additional ideas and comments to the general plan team (address shown at left).

A General Plan is mandated for all state park units by the California Public Resources Code. The plan becomes the primary management document for a unit of the State Park System, establishing its purpose and management direction for the future. The plan does not provide specific designs or locations of facilities but does provide a vision for the park and guidelines for park use, management and development.
