Please join us for our upcoming California Boating and Waterways Commission tour and meeting. In California, boating season goes beyond summer, and it is important for the public to learn how the Division of Boating and Waterways (DBW) continues to promote safe and responsible access to Southern California's waterways. Working with our constituents is key to implementing successful programs.

At the October meeting, DBW will provide Commissioners with updates on the following programs: Local Assistance Floating Restrooms, Local Assistance Pumpout Facilities, Local Assistance Boat Launching Facilities, Local Assistance Public Craft Harbor Loans, and Shoreline Erosion and Restoration. The public and commissioners will tour the Shelter Island Boat Launching Facility, and will have an opportunity to attend the Marine Recreation Association Conference on October 23 at the Hilton La Jolla in Torrey Pines, San Diego.

DBW hopes you can participate in person or online. For further information, please visit [www.parks.ca.gov/commissions](http://www.parks.ca.gov/commissions) and select California Boating and Waterways Commission - to discover details as they are announced.
