*Morro Bay State Park features lagoon and natural bay habitats. The bay's most prominent landmark is Morro Rock—illegal to climb. The park has opportunities for sailing, fishing, hiking, and bird watching. The park museum has exhibits that cover natural features and cultural history, Native Californian life, geology, and oceanography. The park also has a marina and an 18-hole public golf course. On the bay's northeast edge is a pristine saltwater marsh that supports a thriving bird population.*
