

# Park Index

1889 portrait of Colonel Allen Allensworth, founder of the town of Allensworth, California. Part of the Colonel Allensworth State Historic Park collection. Catalog Number 090-2201.

## PARK INDEX

The Park Index lists park units alphabetically. Cross-references refer the user from common, subordinate, or variant names to the official park name. Asterisks (\*) denote parks whose photographic prints have been scanned and entered in the Photographic Archives Image Database. A “plus” sign (+) denotes parks that have had a portion of their collections entered into the system but are still pending complete cataloging of the overall core collections.

### PARK INDEX LEGEND:

<b>CP</b>	Cultural Preserve	<b>SS</b>	State Seashore
<b>NP</b>	Natural Preserve	<b>SURA</b>	State Urban Recreation Area
<b>SB</b>	State Beach	<b>SVRA</b>	State Vehicular Recreation Area
<b>SP</b>	State Park	<b>SW</b>	State Wilderness
<b>SHM</b>	State Historical Monument	<b>(UC)</b>	Unclassified
<b>SHP</b>	State Historic Park	<b>WC</b>	Wayside Campground
<b>SMR</b>	State Marine Reserve		
<b>SNR</b>	State Natural Reserve		

### DISCONTINUED PARK CLASSIFICATIONS

<b>SHF</b>	State Historic Farm	<b>SR</b>	State Reserve
------------	---------------------	-----------	---------------

### ADDITIONAL INFORMATION

<b>District / Unit</b>	Internal Department organizational structures under which the specific park falls at the time of this publication.
<b>Inclusive Dates</b>	Represents the overall date range based upon the images with corresponding catalog records in our database for a specific park. The date range covers earliest to current latest year of identified images.
<b>Slide Cabinet</b>	The Photographic Archives phased out the older analog storage and access system for the 35mm slide collection as part of the transition to the new facility at McClellan. We created a backup of the organizational structure that will allow for pulling and review of materials based upon original storage and access schema. As such, we retained the original storage and access schema for this edition of <i>The Guide</i> .
<b>Total Images</b>	Represents the total number of images with corresponding catalog records in our database. This number is then divided into three sub categories (see below)
<b># of Photos</b>	Represents the overall catalog records where the primary source for the image is in photographic negative or photographic positive format.
<b># of Slides</b>	Represents the overall catalog records where the primary source for the image is in 35mm color slide format.
<b># of Digital</b>	Represents the overall catalog records where the primary source for the image is in “born digital” format (e.g. captured with a digital camera).
